

Tree Health Check Program 2022 Information Guide

Program Purpose

Did you receive a tree from our 2021 Trees for Bellevue Tree Giveaway Program? If so, you are eligible to apply to our Tree Health Check Program! This program provides an in-person tree health assessment to select applicants during the summer of 2022. The goals of the program are to 1. Provide an in-person opportunity for Bellevue residents to ask questions about tree care, and 2. To understand and help ensure the survivability of given away trees.

Program Overview

Those selected will receive one on-person tree health assessment for the first year, followed by a photographic assessment for the next four. **Residents are encouraged to be present for their health check** to allow access to the tree(s) and answer any tree health questions you may have.

It is important to note the Tree Health Checks will not be performed by a certified arborist and residents may be recommended to consult with a certified arborist for complete tree care.

Qualifications

In order to apply, you must have received at least one tree from the 2021 Trees for Bellevue Tree Giveaway Program and have planted that tree at your residence within the City of Bellevue. To be considered, please fill out this short form below. When applying, please use the same identifying information that was used in your Tree Giveaway Event application!

For those selected, please let us know if you move from your property!

We additionally encourage all Trees for Bellevue Tree Giveaway Program tree recipients to send us updates and photos of their trees and email us any questions they might have at Trees@bellevueWA.gov.

COVID-19 Safety

All health checks will be performed in accordance with state and city safety guidelines.

Questions

Please contact City of Bellevue Americorps Urban Forestry Specialist, Remy Barbiero, at RBarbiero@bellevuewa.gov with questions.
